Activities: Media Design, Adobe Illustrator, Photoshop, Xd, Web design (HTML, CSS, Bootstrap e Javascript)

High School Diploma in IT and Telecomunnications

ITIS Cartesio
2010 - 2015

EXPERIENCE

Quality Assurance Specialist • Logol AG

May 2026 | Chiasso, Switzerland

Joined Logol AG as the primary point of reference for Quality Assurance, defining and managing QA activities across multiple projects. Played a key role in the successful go-live of ELLE X, LOGOL AG's proprietary software developed with Microsoft Power Platform and Power Apps.

- Defined the QA strategy and managed the end-to-end testing lifecycle.
- Performed test analysis and test design, preparing test scenarios, test cases, test data, and test suites based on business and functional requirements.
- Managed testing, defect tracking, and release validation using Azure DevOps Test Plans.
- Led UAT activities, coordinating seven business users throughout the testing phase.
- Performed functional, E2E, regression, exploratory, and UAT testing.
- Reviewed Pull Requests and used AI tools, particularly Claude and Claude Code, to support bug analysis and resolution.
- Introduced the company's first Playwright automation framework for critical regression workflows.
- Created and maintained the HTML User Manual, including an automated pipeline for publishing updates

Test Engineer
GOSP • Generali Operations Service Platform

June 2023 - May 2026 | Milan, Italy

I joined **Generali** to work on a new **white-label Flutter Mobile** and **Web application**. For the first 8 months, I was part of the Italian team for **Alleanza Assicurazioni**. From February 2024, I joined the international team covering **Generali Poland**, **Slovenia**, **Switzerland**, **Austria**, and other countries. As the only Test Engineer until October 2025, I set up the entire **QA process** from scratch, creating documentation, test book templates, and bug management procedures, and later onboarded three additional colleagues to the team.

- Implement and maintain QA workflows, including test planning, defect tracking, and reporting, ensuring consistent quality across multiple business units (Generali Poland, Slovenia etc.).
- Design and execute E2E, integration, regression, smoke and accessibility tests.
- Perform manual **API tests** with **Postman**.
- Support the functional analysis team during initial design phases.
- Collaborate closely with UX, FE, BFF, and technical analysis teams, ensuring quality across multiple business units.
- Manage test activities and track defects using Jira.
- Create and execute automation test scripts for Web and Mobile using **Selenium**, **Appium**, **Cucumber**, and **Rest Assured**, all in **Java**, executed on **Sauce Labs** and physical devices.
- Assist the Senior Automation Engineer in maintaining and improving test code.

Quality Assurance Specialist
AKQA • WPP Group

November 2021 - June 2023 | Milan, Italy

I joined AKQA Italy as the first **QA Specialist**, building the **foundations** of the **QA process** within the agency. I **created internal resources** such as a **knowledge wiki** and a **QA presentation** shared with all colleagues, helping **Project Managers** and teams **integrate QA** effectively into **projects**.

- Established **QA best practices**, **project lifecycle guidelines**, and testing **methodologies** within the agency.
- **Created** and **presented** a **QA introduction deck**, made available to all employees.

COURSES AND TRAINING

Individual training and other resources:

- HTML5 and CSS, Bootstrap
- Oracle SQL
- **Accessibility**: W3Cx Introduction to Web Accessibility edX course (W3Cx WAI0.1x)
- **Program & Project Management:** FBA Applied management
- **Test Automation:**
  - Katalon (Practitioner Level Certification)
  - Selenium WebDriver with Java -Basics to Advanced+Frameworks on Udemy (in progress)

LANGUAGES

Italian - Native
English - Almost B2

TECHNICAL SKILLS

Testing Types & Methodologies

- API Testing
- Functional Testing
- Regression & System Testing
- End-to-End (E2E) Testing

Quality & User-Focused Testing
- UX/UI Testing
- Accessibility Testing

Test Automation
- Low-code Automation: Katalon
- Playwright, Selenium, Appium, Cucumber

Tools

API: Postman
Project and test management: Jira (XRay, Zephyr), Trello, Micro Focus ALM, Azure DevOps Test Plan
Design: Figma (dev mode), Adobe Illustrator
CMS: Directus, Drupal, Wordpress

Development Technologies

Database: SQL (Oracle DB, DB2, MySql)
Front-End: HTML5, CSS, Bootstrap, Javascript fundamentals
Back-End: C / C++, Python, Java fundamentals

Project Methodologies

Agile Kanban, Scrum Agile, Waterfall

- Worked simultaneously on **multiple client telco, insurance and banking projects** (e.g., Intesa San Paolo, Vodafone Italia, Banca Mediolanum) with a focus on verifying **design** and **UX compliance** through targeted layout and design testing.
- Since 2021, contributed to GORE-TEX website maintenance by performing **front-end tests** and supporting developers in **bug analysis** and resolution
- **Test automation low code** with **Katalon** for the client **Ferrari**.

Test Specialist • Business Analyst
Finwave • Lutech company

October 2020 - November 2021 | Milan, Italy

I worked as a **focal point** for **testing** for this company, I supported **testing** and **analysis activities** across **multiple projects** in the **insurance**, **banking**, and **leasing sectors (e.g. Banca Ifis, BCC etc.)**, collaborating closely with the **Scrum Master** and company teams. I was brought in specifically to establish **testing principles** and **build** a more **structured QA process**.

- **Created analysis documents** from scratch, including **test cases** and **mock-ups.**
- **Executed tests** using **Oracle DB** and in-house systems.
- **Supported end-to-end testing processes** for different company groups.
- **Tracked** and **managed** analysis and testing activities through **Jira**.

Test Specialist • IT Specialist
IBM Client Innovation Center Italy

September 2019 – October 2020 | Milan, Italy

I worked as a **Test Specialist** on a **major business transformation project** for **Vodafone**, focused on **migrating client data** from **IBM databases** to **external databases.**

- **Designed** and **executed system** and **regression tests**, including **data preparation** and **script quality validation.**
- **Developed SQL queries** to implement and support testing activities
- **Planned test cases** from architectural specifications and documented results in test books.
- **Managed defects** and **collaborated** closely with the **development team** to ensure issue resolution.
- Used client tools such as **RQM**, **RTC**, and **Micro Focus ALM** for **test planning, tracking,** and **reporting.**

Software Tester
BlogMeter • Me-Source Srl

March 2017 – August 2019 | Milan, Italy

In this role I combined **testing** and **design skills**, supporting the **Front-End** team while learning UX/UI principles from the company's **graphic designer** and applying them to real projects.

- **Tested new features** of the **company's tools**, creating detailed. **testbooks** and **post-test reports** with **Excel** in an **Agile** environment
- Assisted the **Front-End** team with **task management**, **bug fixing**, and **coordination** of **new development activities.**
- Worked closely with the **Project Manager** to ensure constant alignment on project progress.
- Gained hands-on experience in **HTML5**, **CSS**, and **Bootstrap** while **refactoring** an **internal tool** and **designing** a **new client website** in collaboration with the company's graphic designer.
- Applied **UX/UI concepts** to guide front-end development and deliver user-centered solutions.

I consent to the processing of my personal data for recruitment purposes.

August 2026,

Alice Paggi
